Building Automation Systems

Building Automation and Controls

Honeywell

When it comes to controlling the systems in your building, many times it is difficult to give the proper amount of attention to maintaining the right temperature, lighting, and necessary safety precautions. Building automation systems will enable you to focus on the core of your business while ensuring that everything is running efficiently.

One control system for simplified building management and monitoring

- ✓ Save Money
- ✓ Increase Flexibility
- ✓ Save Energy
- ✓ Increase Productivity

Building Automation Systems Can Control:

Heating and Cooling Systems

Lighting Systems

Access Control Systems

Security & Surveillance Systems

Energy Efficient Environments

Provide comfortable, efficient, productive surroundings for your most valuable assets — your employees — when you create energy-efficient working environments that utilize energy only when and where it is needed.

Engineered Controls offers affordable integrated building control systems and will work with you to create a system solution to fit the needs of your building and staff.
